SOFTWARE DEVELOPMENT AGREEMENT

This Software Development Agreement ("Agreement") is entered into on 3 March 2025 between Alpha Technologies Pvt. Ltd., a company incorporated in Bengaluru, India ("Client"), and Beta Solutions LLP, a software engineering firm based in Pune, India ("Developer").

1. SCOPE OF WORK
The Developer shall design, develop, test and deliver a cloud-based inventory management platform for the Client, including a web dashboard, a REST API and an Android mobile application. The detailed functional requirements are described in Schedule A.

2. PROJECT TIMELINE
Development will proceed in three milestones: (a) requirements and architecture, completed within four weeks; (b) core platform development, completed within twelve weeks; and (c) testing, deployment and handover, completed within four weeks. The Developer shall provide weekly progress reports to the Client's project manager.

3. ACCEPTANCE TESTING
Each milestone deliverable shall be subject to acceptance testing by the Client within ten business days of delivery. The Client shall notify the Developer in writing of any defects, which the Developer shall correct at no additional cost.

4. FEES AND PAYMENT

The total fee for the project is INR 18,00,000 (eighteen lakh rupees), payable in three instalments of 30%, 40% and 30% upon acceptance of each milestone. Invoices are payable within thirty days. Late payments shall attract interest at 1% per month.

5. INTELLECTUAL PROPERTY

Upon full payment, all intellectual property rights in the source code, designs and documentation created specifically for the Client shall transfer to the Client. The Developer retains ownership of its pre-existing libraries and tools, and grants the Client a perpetual, non-exclusive licence to use them as part of the delivered software.

6. CONFIDENTIALITY

Each party shall keep confidential all business, technical and financial information disclosed by the other party, and shall not disclose it to any third party without prior written consent. This obligation survives termination of this Agreement for three years.

7. WARRANTY
The Developer warrants that the delivered software will perform materially in accordance with Schedule A for ninety days after final acceptance. During this warranty period the Developer shall fix reported bugs free of charge.

8. TERMINATION
Either party may terminate this Agreement with thirty days' written notice. If the Client terminates for convenience, it shall pay for all work completed up to the termination date.

9. GOVERNING LAW
This Agreement is governed by the laws of India. Disputes shall be resolved by arbitration in Bengaluru.

SCHEDULE A - FUNCTIONAL REQUIREMENTS

A1. Inventory tracking: the platform shall track stock levels for each product across all warehouses in real time, and record every stock movement with the user, time and reason.

A2. Purchase orders: users shall be able to create, approve and send purchase orders to suppliers. Orders above INR 5,00,000 require approval from a finance manager.

A3. Low-stock alerts: the system shall send email and in-app alerts when stock for a product falls below its configured reorder level.

A4. Barcode scanning: the Android application shall scan product barcodes to record goods received, stock transfers between warehouses and stock counts.

A5. Reporting: the web dashboard shall provide reports on stock valuation, slow-moving items, supplier lead times and monthly consumption, exportable to Excel and PDF.

A6. Access control: the platform shall support roles for administrators, warehouse staff and finance users, with permissions configurable by administrators.

A7. Integrations: the REST API shall allow the Client's existing accounting software to read purchase orders and stock valuation data.

A8. Performance: dashboard pages shall load within three seconds for up to 200 concurrent users.
